CAREER OBJECTIVE

Third-year B.Tech student in AI & ML with hands-on experience in Python, SQL, C, JavaScript, HTML5, and CSS3. Completed a Google-AICTE ML internship and built a deployed AI-powered web application. Seeking a software engineering internship to apply machine learning and full-stack development skills to real-world problems.

ACADEMIC QUALIFICATIONS

Ramachandra College of Engineering, Eluru B. Tech - Artificial Intelligence and Machine Learning 75.24%	2023 - 2027
Narayana Junior College, Vijayawada Intermediate 77%	2021 - 2023
Sri Chaitanya English Medium School, Mylavaram SSC 100%	2020 - 2021

INTERNSHIP EXPERIENCE

Google for Developers and AICTE / Eduskills Artificial Intelligence and Machine Learning Virtual Intern	Oct 2025 - Dec 2025
Completed a 10-week virtual internship program to develop practical, industry-relevant skills in AI and ML. Programmed and evaluated 4 distinct machine learning models (including Decision Trees and Logistic Regression) by leveraging Python, scikit-learn, pandas, and NumPy for data processing on real-world datasets. Trained predictive models successfully, establishing a strong foundation in data manipulation, algorithm implementation, and model evaluation.	

SKILLS

- Programming Languages:** Python, Java, SQL, C
- Web Development:** HTML, CSS, JavaScript
- Data and ML:** Machine Learning (ML), Artificial Intelligence (AI).
- Version Control:** Git, GitHub
- Tools and Platforms:** VS Code, MongoDB
- Soft Skills:** Teamwork, Communication, Time Management, Adaptability, Problem Solving.

PROJECTS

Expense Tracker and EMI Calculator Python, HTML, CSS, JavaScript, GitHub	March 2025
Developed an AI-powered web application to track, manage, and categorize user finances across 10 distinct categories.	

CERTIFICATIONS

- Oracle Certified Foundations Associate** - Oracle University (July 2025)
- Artificial Intelligence Fundamentals** - IBM (2025)
- Python Essentials 1 and Python Essentials 2** - Cisco Networking Academy (2025)
- 5-Day Generative AI Agents Intensive Course with Google** - Kaggle and Google (2025)
- Generative AI (GenAI) for Everyone** - Coursera (December 2025)
- Fundamentals of Artificial Intelligence and Machine Learning** - Infosys Springboard (June 2025)
- AI for Beginners** - HP LIFE (June 2025)
- C Programming Basics** - Simplilearn

EXTRA-CURRICULAR ACTIVITIES AND WORKSHOPS

- 6-Day National Workshop on Web Development with AI: Gained practical exposure to HTML, CSS, and AI driven web tools.
- National Level 24-Hour Hackathon Participant: Applied problem-solving skills and built a real-time project.
- Completed** the Google 5-Day Generative AI Agents Intensive Workshop, gaining practical hands-on experience with AI agent architecture, prompt engineering, and machine learning pipeline design.
